Zennio

ELEVATED MINIMALISM IN DESIGN

ZS70 SERIES

The new Zennio series for projects that demand elegance, seamless integration and intuitive control.

Zennio

OUR ORIGINS

We were founded with a commitment to improving comfort and reducing energy consumption.

We specialise in the designing and manufacturing of KNX home automation solutions for residential developments, commercial spaces and hotels.

Our dedication has established us as a trusted global manufacturer, delivering innovative products that transform any environment into a smarter, more efficient space.

OVER 500 EMPLOYEES

Since our beginnings, we have experienced continuous growth, reflecting our commitment to excellence and diversity.

OPERATING COMPANIES IN 30+ COUNTRIES

Zennio Europe
Zennio Latin America
Zennio Middle East
Zennio Asia-Pacific
Zennio North America

PRESENT IN 123 COUNTRIES

An achievement that reflects our global vision and ability to operate on a large scale.

Our international presence demonstrates our commitment to excellence, innovation, and sustainable growth in an interconnected world.

EXPANDING OUR PORTFOLIO

This strategic step reflects our commitment to growth and diversification as we continue innovating within our industry.

OVER 100,000 HOTEL ROOMS

Through our hospitality solutions, we serve leading hotel brands including Meliá, Marriott, Six Senses, Hyatt, Hilton, Royalton, Barceló, WSF group, and many others.

OVER 35,000 HOMES

Through our residential solutions for multi-dwelling units (MDUs), we support institutional developers and bring smart home technology to residences around the world.

OVER 12,000 PROJECTS COMPLETED

The continuous development of new solutions and the refinement of every product position us as an industry leader.

ZS70

ZS70, MAXIMISING DESIGN

The ZS70 series is designed to make the most of every millimetre of the installation surface, optimising each element to achieve seamless integration in any environment.

By eliminating gaps between components, the series creates a more compact and continuous composition, reinforcing a minimalist aesthetic and a discreet presence that naturally complements a wide range of architectural styles.

Zennio

TIMELESS MINIMALISM

Pure aesthetics designed to complement any project.

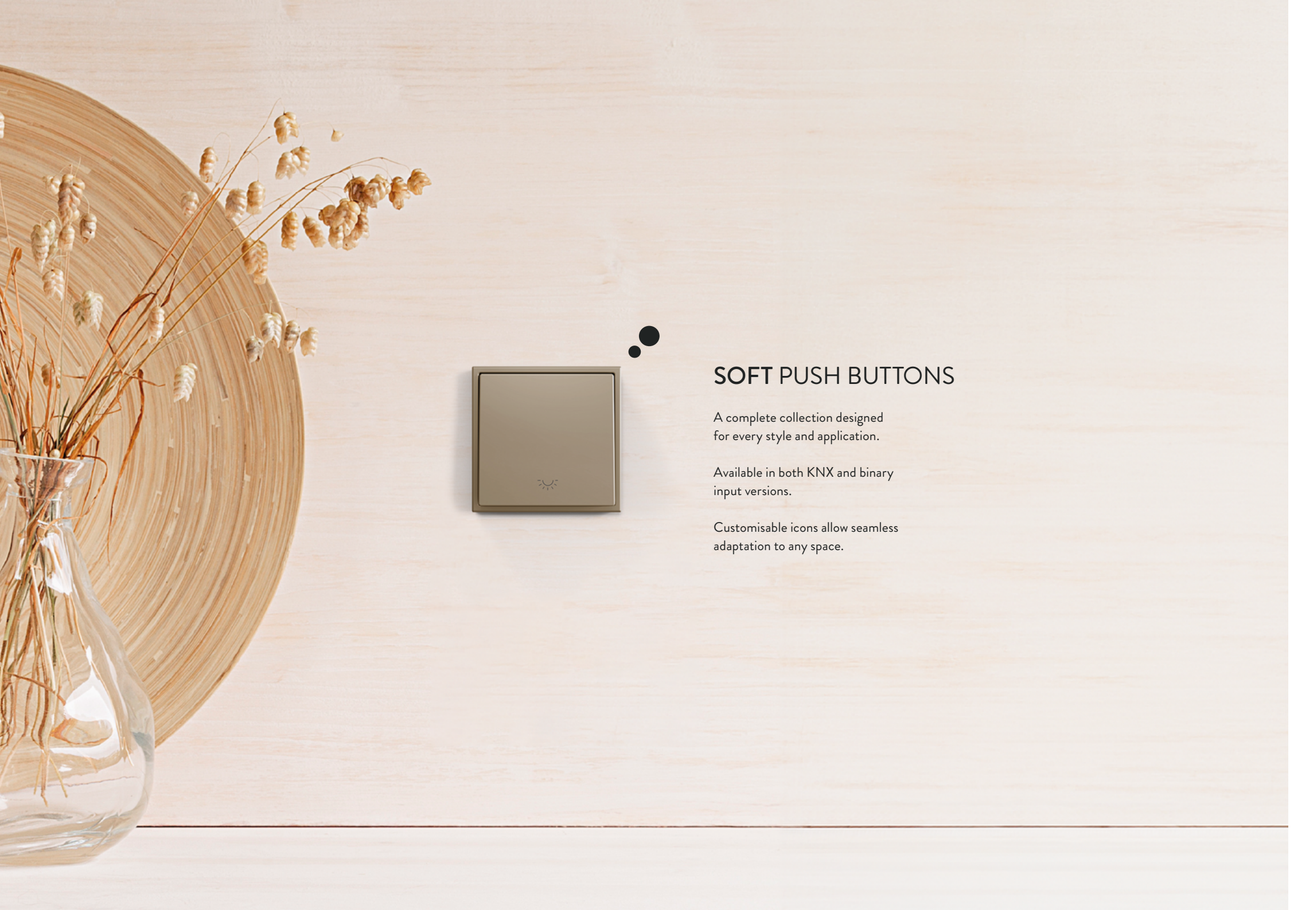

FINISH OPTIONS

A variety of finishes to blend seamlessly into different environments.

INTUITIVE TOUCH EXPERIENCE

Precision and smooth operation in every interaction.

SOFT PUSH BUTTONS

A complete collection designed
for every style and application.

Available in both KNX and binary
input versions.

Customisable icons allow seamless
adaptation to any space.

WHITE SILVER ANTHRACITE CHAMPAGNE MOCHA

Flat **RGB 70**

A capacitive push button where design becomes the focal point. Its tempered glass surface allows images, icons, or logos to be integrated directly into the device, creating a unique solution tailored to the identity of each space. RGB backlighting enhances versatility and blends naturally into any environment.

Tecla **RGB 70**

A capacitive push button designed for simple and direct control.

Customisable icons allow it to adapt to the needs of any project, while RGB backlighting provides additional flexibility and visual appeal.

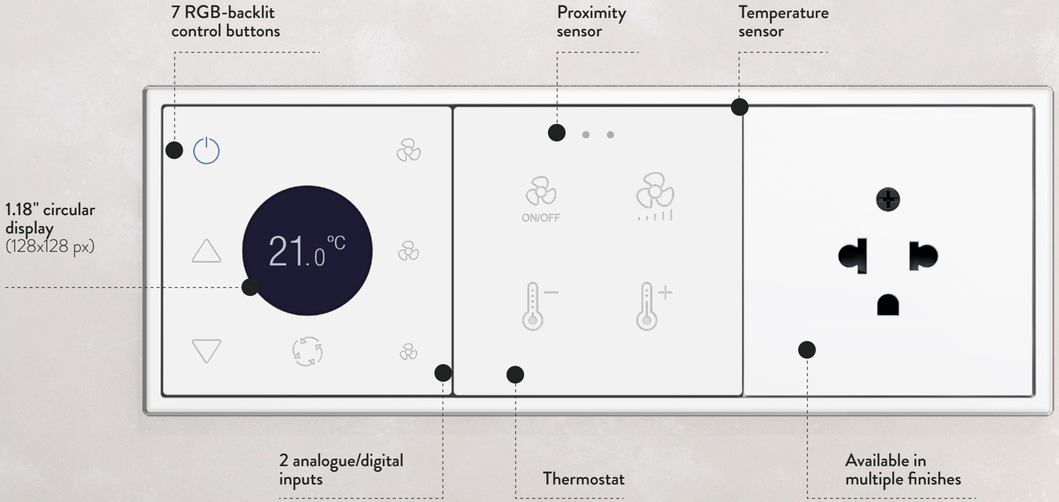

Zennio

Flat **RGB 70 Display**

WHITE SILVER ANTHRACITE CHAMPAGNE MOCHA

Zennio

CX33 - the perfect complement to the 70 x 70 series

WHITE SILVER ANTHRACITE CHAMPAGNE MOCHA

CX33

3,3" display designed for 70 × 70 frames.

- All-in-one touch controller
- Elegant, intuitive, and fully customisable interface
- Two navigation modes: tabbed and hierarchical
- Integrated proximity and temperature sensors
- Adaptive light and dark modes
- Powered entirely via the KNX bus

Zennio

Elegance and **control**
within a single modular surface

SOCKETS

Reliable connectivity in every format.
